

LOCATE WITH CONFIDENCE.

NULCA-ACCREDITED UTILITY LOCATOR TRAINING

Real-World Training. Real-World Skills. Safer Digging.

THREE TRAINING OPTIONS TO FIT YOUR TEAM

1
DAY

Experienced Locator Training

A focused refresher for experienced technicians covering locating fundamentals, advanced techniques, signal interpretation, and troubleshooting, and hands-on skills evaluation.

2
DAYS

New Locator Training

Comprehensive classroom and field instruction for new technicians. Build a strong foundation in locating principles, equipment operation, field procedures, accuracy verification, and safe locating practices.

+1
DAY

Optional Advanced Training

Add a third day dedicated to either GPS/GNSS Utility Mapping or Ground Penetrating Radar (GPR). Expand your team's capabilities beyond traditional electromagnetic locating.

TRAIN AT OUR OMAHA FACILITY

Professional training environment with classroom and hands-on field sites.

OR WE BRING THE TRAINING TO YOU

On-site training at your location for your team's specific needs.
